Dear Dan:

Based on Sid's confirmation this week of the total order of five System 4's for FOG requirement and his willingness for us to proceed with procurement and fabrication where appropriate, we will proceed with a total order of a prototype plus seven production systems in accordance with the contract as amended. We will not make commitments for material in any area in which there is doubt about the final configuration based on flight tests still in progress. It appears desirable, however, to go ahead with the bulk of the procurement and some fabrication both from a time consideration and to take advantage of the larger quantity of fabrication of subassemblies.

Sincerely,

Bob

Bob
